EDUCATION

- Banasthali Vidyapith, Rajasthan

2024 – 2028

Bachelor of Technology in Electronics and Communication Engineering

CGPA(until 3rd semester): 7.96
- DAV Public School, Kusunda

2022

Central Board of Secondary Education (CBSE)

Percentage: 80.33%
- DAV Public School, Kusunda

2020

Central Board of Secondary Education (CBSE)

Percentage: 86.80%

TECHNICAL SKILLS AND INTERESTS

Languages: Python, C++, Java, MATLAB
Developer Tools: VS Code, Git, Anaconda, Jupyter Notebook, Colab
Frameworks: PyTorch, TensorFlow, OpenCV, YOLOv8
Cloud/Databases: Google Cloud, MySQL, MongoDB
Soft Skills: Teamwork, Problem Solving, Communication, Time Management
Coursework: Data Structures, Algorithms, Machine Learning, Computer Vision
Areas of Interest: Artificial Intelligence, Computer Vision, Cybersecurity, OSINT

PERSONAL PROJECTS

- Image-Based OSINT Intelligence Tool

Hack with Rajasthan / 2024

AI-powered system to verify digital content and extract intelligence from images.

– Implemented reverse image search, visual similarity detection, and EXIF metadata analysis using Python and OpenCV.

– Achieved **95% accuracy** and reduced manual verification time by **70%**; secured **3rd position among 250 teams**.
- AI Safety Equipment Detection System

GenIgnite by Microsoft / 2024

Real-time computer vision system for detecting critical safety equipment in live environments.

– Built a low-latency object detection model to identify helmets, gloves, and safety vests in video streams.

– Achieved **92% detection accuracy** with real-time alerts for industrial safety monitoring.
- ChatShield – AI-Powered Content Moderation System

Hack Celestia / 2025

Real-time AI moderation layer for detecting toxic and abusive behavior in chat-based platforms.

– Developed a multilingual, slang-aware NLP system using HuggingFace Transformers and FastAPI.

– Enabled real-time moderation with context-aware severity classification (Mild–Severe) and near-zero latency.

ACHIEVEMENTS

- Hack with Rajasthan – 3rd Position

2024

– Built an Image-Based OSINT Intelligence Tool achieving **95% accuracy** and reducing verification time by **70%**.
- Hack Celestia – Project Finalist

2025

– Developed **ChatShield**, an AI-powered real-time content moderation system for safer virtual interactions.
- GenIgnite by Microsoft – Top 15 Teams

2024

– Built a real-time AI Safety Equipment Detection System with **92% accuracy** and sub-**200ms latency**.
